

OTC - 2000 Elite Coinless Phone

The **OTC-2000** can be used as a standalone single line phone, or on a PABX as an extension phone. If you need to use a call controller, auto-dialer or siren, this roomy housing will definitely meet your needs. Since standard payphone keypads and smart boards are easily installed into this housing, converting **OTC-2000** into a smart coinless phone is very straightforward and trouble-free.

The **OTC-2000** is made of 11-gauge cold rolled steel with a durable powder coating finish that will withstand the environment of your most inhospitable locations.

Standard Features

-  Heavy-duty armored lexan handset is hearing aid compatible (HAC) and has an anti-static receiver.
